Wooten, Santa Fe Springs; Fred Davis, San Diego; A. L. Witten, Santa Ana; C. L. Frenkert, Gallen, Mich.; Jack Smith, San Diego; J. W. Pontius, Los Angeles.

### Ford Brings Out All-Steel Truck With a Cab Unit

The Ford Motor company announces a new product, an all-steel combination truck body and cab mounted on the standard Ford one-ton chassis, to be sold as a complete unit.

The new body is of the open type, so constructed that it may be readily converted into other body combinations by using stakes, side boards, canopy top, screen sides, etc.

"In fact," says the Ford statement, "the purpose in producing the new body was to place a low-cost general utility truck, meeting both agricultural and commercial requirements, at the disposal of ton truck users."

The body is made of steel to with-

stand the most severe usage, and presents a new development in construction. The steel sills are reinforced with wood in order to lessen vibration and road shocks, thus making for more durability and longer life.

The loading space is 7 feet 2 inches in length by 4 feet in width and of convenient and practical depth. The end gate is strongly braced and secured by heavy chains which hold it in position when lowered.

#### EASTERN STAR

On Tuesday evening, Feb. 12, Torrance chapter No. 350, O. E. S., will join with the other chapters of the district in a joint session in the Masonic hall, San Pedro, at 8 o'clock. At this time the grand officers will make their official visit. All members are asked to attend.
